RE: Field Inspection, White Cap #8, Gypsum Resource Development, Inc.,
S/015/047, Emery County, Utah

Date of Inspection: February 5, 1991
Time of Inspection: 1:00 p.m. - 1:30 p.m.
Conditions: Sunny and bright, some snow cover, cold
Attendees: Myself

I stopped today at the White Cap Gypsum Quarry site, to make a determination of the current active status of that site.

Nothing was happening today at the site, although it was obvious that some activity had occurred within the past couple of days. The size of the disturbance has not grown since my last inspection, which estimated the disturbance to be about 4 to 4.5 acres. Operations at the site seems to have slowed down since this last fall.
